

Summareasy

How to use it

Open any PDF file, and with the mouse select what you want to write in the summarize page, which is in the right. Then, use any of the following commands:

- For inserting the selected text:
 - q: right next the last line of the summarize page.
 - w: as a new line.
 - e: as a new paragraph.
 - t: as a title.
- Undo/Redo:
 - u: Undo the last change.
 - r: In progress :(.
